Case Study: China
Professional Certificate from Unaccredited Institution

DATAFLOW

Overview

An applicant submitted their professional qualification to the DataFlow Group for verification. The presented document stated that he had attained the certificate from Beijing Jinghua Medical University in China.

Following extensive screening and research conducted by the DataFlow Group, it became clear that the mentioned university is unrecognized and unlisted as an approved institute under the Ministry of Education of the People's Republic of China. To support this finding, the DataFlow Group took the PSV procedure one step further and contacted an official from the Beijing Municipal Education Commission who confirmed that Beijing Jinghua Medical University is not permitted to enroll new students and was undergoing deregistration at the time.

DataFlow Group Solutions

In order to determine the accuracy and authenticity of the Applicant's documents, the DataFlow Group conducted:

- **Online Research** - The DataFlow Group boasts an expert research team that specializes in the extraction of critical information from worldwide online databases

- **Primary Source Verification** - The DataFlow Group has emerged as the leading international provider to solely focus on background screening and immigration compliance solutions using Primary Source Verification

- **Cross Checking** - The DataFlow Group leverages an expansive network of over 60,000 issuing authorities throughout more than 200 countries and territories to verify the authenticity of various documents

Operational Excellence

- Global Outreach Covering 200+ Countries
- Worldwide Network of 60,000+ Issuing Authorities
- Unique Set of Customised Services
- Fast Turnaround Time
- International Partnerships and Affiliations
- Qualified Experts and Researchers with Multilingual Capabilities

Technological Leadership

- Cutting-Edge Online Process Flow
- Robust Platforms
- Industry Leading Information Security
- Fast and Accurate Data
- Proprietary Databases
- Advanced Ecosystem and Robust IP-Based Delivery Framework

Result

The DataFlow Group classified the case as 'Not Verified' - ultimately showing that the mere existence of an educational institution does not guarantee its accreditation by official authorities.
